Explanatory Statement under Section 230(3) read with Section 232(2) of the Companies Act, 2013.

1. Meeting for Scheme of Arrangement

This is a Statement accompanying the respective Notices convening meetings of Equity Shareholders and Unsecured Creditors of Asian Hotels (East) Limited, being the Applicant Company No.2 abovenamed (hereinafter referred to as "**AHEL**") for the purpose of their considering and if thought fit, approving, with or without modification, the proposed Scheme of Arrangement between GJS Hotels Limited, being the Applicant Company No.1 abovenamed (hereinafter referred to as "**GJSHL**"), the said AHEL, being the Applicant Company No.2 abovenamed and Robust Hotels Private Limited (hereinafter referred to as "**GJSHL**"), the said AHEL, being the Applicant Company No.2 abovenamed and Robust Hotels Private Limited (hereinafter referred to as "**GHPL**") and their respective shareholders whereby and whereunder it is proposed to (1) reconstruct GJSHL and AHEL by demerger of the Demerged Undertaking of GJSHL (including investment in RHPL) to AHEL and (2) reorganise and convert the outstanding 43,00,000, 12% Cumulative Redeemable Preference Shares of Rs.100/- each of RHPL ("**Specified Preference Shares**") and 1,55,00,000 0.1% Unsecured Cumulative Non-Convertible Debentures of Rs.100/- each of RHPL ("**Specified Debentures**") into Equity Shares of RHPL, in the manner and on the terms and conditions stated in the said Scheme of Arrangement. The salient features of the Scheme of Arrangement are given in paragraph 5 of this Statement. The detailed terms of the arrangement will appear from the enclosed draft of the Scheme.

2. Date, time and venue of Meeting

Pursuant to an order dated 21st December, 2017 as modified by an order dated 4th January, 2018, passed by the Hon'ble National Company Law Tribunal, Kolkata Bench ("**Tribunal**") in Company Application No. (CAA) No.516/KB of 2017, separate meetings of the Equity Shareholders and Unsecured Creditors of AHEL will be held for the purpose of their considering and if thought fit approving of, with or without modification(s), the said Scheme of Arrangement at Hyatt Regency Kolkata, JA-1, Sector-III, Salt Lake City, Kolkata 700 098 on Wednesday, the 21st day of February, 2018 at 11:00 a.m. and 1:00 p.m. respectively.

3. Rationale and benefits

The circumstances which justify and/or have necessitated the said Scheme of Arrangement and the benefits of the same are, inter alia, as follows:-

- (a) AHEL is a well established hospitality company engaged primarily in the business of running the 'Hyatt Regency' hotel at Salt Lake in Kolkata. In addition, AHEL holds and is engaged in the business of investing in shares and securities of other bodies corporate on both, a short term basis (current investments) and long term basis (non-current investments). AHEL thus also has substantial interests in the hospitality business through its subsidiaries, being GJSHL which is a direct and wholly owned (100%) subsidiary of AHEL and RHPL which is a subsidiary of GJSHL. While RHPL is running the 'Hyatt Regency' hotel at Anna Salai, Teynampet in Chennai, GJSHL is pursuing a project for establishing a hotel in Bhubaneshwar, Odisha. The operations of GJSHL have been funded primarily by AHEL by a combination of equity capital and loan while the operations of RHPL have also been funded primarily by AHEL and GJSHL ard RHPL is relatively new. The said Companies have been looking at suitable proposals for restructuring with the objective, inter alia, of simplifying and rationalising their holding and financial structure and pursuing their business more conveniently and beneficially.
- (b) In the circumstances and as part of an overall restructuring plan, it is considered desirable and expedient to (1) reconstruct GJSHL and AHEL by demerging the Demerged Undertaking of GJSHL (including investment in RHPL) to AHEL and (2) reorganise and convert the outstanding 43,00,000 12% Cumulative Redeemable Preference Shares of Rs.100/- each of RHPL ("Specified")

Preference Shares") and 1,55,00,000 0.1% Unsecured Cumulative Non-Convertible Debentures of Rs.100/- each of RHPL ("Specified Debentures") into Equity Shares of RHPL, in the manner and on the terms and conditions stated in the said Scheme of Arrangement.

- (c) The demerger will simplify the holding structure of the subsidiaries of AHEL and result in RHPL also becoming a direct wholly owned (100%) subsidiary of AHEL consequent to transfer of the investment of GJSHL in RHPL to AHEL as part of the demerger. Accordingly, following the demerger, both companies, GJSHL and RHPL will be directly held by AHEL. The same will enable AHEL to optimise returns from its investments in its subsidiaries and to hold such investments more conveniently. The activity of holding and monitoring investments in shares and securities of other bodies corporate, including taking decisions and exercising rights in respect of such investments is already undertaken by AHEL on a much larger scale. As such the investment in RHPL will be held and monitored in AHEL more efficiently and advantageously without detracting from the hotel operating business carried on directly by AHEL or diluting focus thereon.
- (d) The demerger will enable GJSHL to pursue operating business with greater focus and attention and facilitate the business considerations and factors applicable to the same to be addressed more effectively and adequately by GJSHL without the responsibility of monitoring investments in RHPL. The demerger will also enable independent evaluation of the said business of GJSHL and facilitate running and operation of such business and growth and development plans thereof to be funded independently.
- (e) The demerger will result in appropriate combination and consolidation of the investment business (Demerged Undertaking) of GJSHL with the investment business of AHEL. Such combined and consolidated investment business in AHEL will be managed and pursued more advantageously and effectively in AHEL.
- (f) The reorganisation and conversion of the Specified Preference Shares and Specified Debentures of RHPL into Equity Share Capital in terms of the Scheme will suitably simplify and rationalise the financial structure of RHPL. The same will also enable RHPL to improve its performance with better operating parameters, including a more appropriate debt equity ratio and enhance its capacity to raise and access funds for growth and development of its business. The conversion into equity will also link returns more closely to performance and provide greater flexibility to the financial structure of RHPL.
- (g) As such, the Scheme will enable AHEL and its subsidiaries to pursue their businesses more conveniently and advantageously and unlock shareholders value.
- (h) The Scheme will suitably realign and adjust the relationship between the capital and assets of the respective Companies and have beneficial results for the said Companies, their shareholders and all concerned.

As will be apparent from the aforesaid table, GJSHL is a wholly owned (100%) subsidiary of AHEL while RHPL is a 68.06% subsidiary of GJSHL. Thus RHPL is also a step down subsidiary of AHEL. All the Equity and Preference Shares of RHPL are held by and between AHEL and GJSHL, as aforesaid.

2.3 In addition to the above, AHEL had also given a loan (short term borrowing) of Rs.373.14 crores to GJSHL and GJSHL had subscribed to and held 2,05,00,000 0.1% Unsecured Cumulative Non-Convertible Debentures of Rs.100/- each issued by RHPL as on the Appointed Date. It is clarified that 50,00,000 Debentures out of the said 2,05,00,000 0.1% Unsecured Cumulative Non-Convertible Debentures of Rs.100/- each issued by RHPL have since been redeemed by RHPL on 27th September, 2016. It is further clarified that the terms applicable to 89,64,623 1% Cumulative Redeemable Optionally Convertible Preference Shares of Rs.10/- each issued earlier by RHPL were varied on 1st October 2016 to make the said Preference Shares convertible compulsorily. Such Compulsorily Convertible Preference Shares of Rs.10/- each will stand converted into Equity Shares accordingly before 31st March, 2017 in accordance with their terms.

3. Objects and Reasons:

- i. AHEL is a well established hospitality company engaged primarily in the business of running the `Hyatt Regency' hotel at Salt Lake in Kolkata. In addition, AHEL holds and is engaged in the business of investing in shares and securities of other bodies corporate on both, a short term basis (current investments) and long term basis (non-current investments). AHEL thus also has substantial interests in the hospitality business through its subsidiaries, being GJSHL which is a direct and wholly owned (100%) subsidiary of AHEL and RHPL which is a subsidiary of GJSHL. While RHPL is running the `Hyatt Regency' hotel at Anna Salai, Teynampet in Chennai, GJSHL is pursuing a project for establishing a hotel in Bhubaneshwar, Odisha. The operations of GJSHL have been funded primarily by AHEL by a combination of equity capital and loan while the operations of RHPL have also been funded primarily by AHEL and GJSHL are business of GJSHL and RHPL is relatively new. The said Companies have been looking at suitable proposals for restructuring with the objective, inter alia, of simplifying and rationalising their holding and financial structure and pursuing their business more conveniently and beneficially.
- ii. In the circumstances and as part of an overall restructuring plan, it is considered desirable and expedient to (1) reconstruct GJSHL and AHEL by demerging the Demerged Undertaking of GJSHL (including investment in RHPL) to AHEL and (2) reorganise and convert the outstanding 43,00,000 12% Cumulative Redeemable Preference Shares of Rs.100/- each of RHPL ("Specified Preference Shares") and 1,55,00,000 0.1% Unsecured Cumulative Non-Convertible Debentures of Rs.100/- each of RHPL ("Specified Debentures") into Equity Shares of RHPL, in the manner and on the terms and conditions stated in this Scheme of Arrangement.
- iii. The demerger will simplify the holding structure of the subsidiaries of AHEL and result in RHPL also becoming a direct wholly owned (100%) subsidiary of AHEL consequent to transfer of the investment of GJSHL in RHPL to AHEL as part of the demerger. Accordingly, following the demerger, both companies, GHSHL and RHPL will be directly held by AHEL. The same will enable AHEL to optimise returns from its investments in its subsidiaries and to hold such investments more conveniently. The activity of holding and monitoring investments in shares and securities of other bodies corporate, including taking decisions and exercising rights in respect of such investments is already undertaken by AHEL on a much larger scale. As such the investment in RHPL will be held and monitored in AHEL more efficiently and advantageously without detracting from the hotel operating business carried on directly by AHEL or diluting focus thereon.
- iv. The demerger will enable GJSHL to pursue operating business with greater focus and attention and facilitate the business considerations and factors applicable to the same to be addressed more effectively and adequately by GJSHL without the responsibility of monitoring investments in RHPL. The demerger will also enable independent evaluation of the said business of GJSHL and facilitate running and operation of such business and growth and development plans thereof to be funded independently.
- v. The reorganisation and conversion of the Specified Preference Shares and Specified Debentures of RHPL into Equity Share Capital in terms of the Scheme will suitably simplify and rationalise the financial structure of RHPL. The same will also enable RHPL to improve its performance with better operating parameters, including a more appropriate debt equity ratio, and enhance its capacity to raise and access funds for growth and development of its business. The conversion into equity will also link returns more closely to performance and provide greater flexibility to the financial structure of RHPL.
- vi. As such, the Scheme will enable AHEL and its subsidiaries to pursue their businesses more conveniently and advantageously and unlock shareholders value.
- vii. The Scheme will suitably realign and adjust the relationship between the capital and assets of the respective Companies and have beneficial results for the said Companies, their shareholders and all concerned.

- 4.7 For the removal of doubts, it is clarified that to the extent that there are inter-company loans, deposits, balances or other outstandings as between AHEL and GJSHL in relation to the Demerged Undertaking, the same shall stand cancelled consequent to transfer of the Demerged Undertaking to AHEL and the obligations in respect thereof shall come to an end. Due effect of such cancellation shall be given in the books of account accordingly with effect from the Appointed Date as a result of such cancellation of inter-company loans, deposits, balances or other outstandings and there would be no accrual of interest or any other charges in respect of the same. The loan (short term borrowing) taken by GJSHL from AHEL in relation to the Demerged Undertaking as on the Appointed Date shall stand cancelled accordingly consequent to transfer of the Demerged Undertaking to AHEL.

16. Conversion to Equity Share Capital

- 16.1 Upon the Scheme becoming effective, RHPL shall without any further application, act or deed, record, issue and allot an aggregate of 7,00,10,000 Equity Shares credited as fully paid up in RHPL in favour of AHEL consequent to appropriation of the Specified Preference Shares and Specified Debentures of RHPL towards Equity Shares in terms of Clause 14.1 hereof.
- 16.2 The Specified Preference Shares and Specified Debentures of RHPL shall stand reorganised and converted accordingly into 7,00,10,000 Equity Shares of Rs.10/- each of RHPL with effect from the Appointed Date. AHEL shall accept such Equity Shares to be issued and allotted to it in RHPL, as above, in full and final satisfaction of all claims in respect of such Specified Preference Shares and Specified Debentures, including in lieu of the amount paid up thereon and all arrears of dividend and interest thereon... It is clarified that the value of such arrears of dividend has been included in the valuation for conversion of the Specified Preference Shares into Equity Shares, as above. Instead of obtaining value of such arrears of dividend in cash, AHEL by this Scheme has accordingly exercised and shall be deemed to have exercised its option to accept Equity Shares in RHPL in which such value is included.

The Board of Directors at its meeting held on 10th February, 2017 after considering all relevant documents, approved the Scheme of Arrangement between GJS Hotels Limited ("**GJSHL**"), Asian Hotels (East) Limited ("**AHEL**") and Robust Hotels Private Limited ("**RHPL**") and their respective shareholders for (1) reconstructing GJSHL and AHEL by demerging the Demerged Undertaking of GJSHL (including investment in RHPL) to AHEL and (2) reorganising and converting the outstanding 43,00,000 12% Cumulative Redeemable Preference Shares of Rs.100/- each of RHPL ("**Specified Preference Shares**") and 1,55,00,000 0.1% Unsecured Cumulative Non-Convertible Debentures of Rs.100/- each of RHPL ("**Specified Debentures**") into Equity Shares of RHPL, in the manner and on the terms and conditions stated in the said Scheme of Arrangement from the Appointed date i.e. 31stMarch, 2016.

The share entitlement ratio for the reorganisation of share capital and debentures of RHPL has been fixed on a fair and reasonable basis and on the basis of the Report of Messrs. NSBP& Co, a reputed firm of Chartered Accountants. There was no difficulty in valuation. D&A Financial Services (P) Limited, independent Merchant Bankers, have also confirmed that the entitlement ratio is fair and proper by their fairness opinion thereon as under:-

Based on our examination of the draft Scheme of Arrangement and the Valuation Report of M/s NSBP & Co. dated 02 February, 2017, we are of the opinion that the proposed share entitlement ratio as recommended by the valuer for conversion of 12% Cumulative Redeemable Preference Shares ("CRPS") and 0.1% Unsecured Redeemable Non-Convertible Debentures ("Unsecured NCD") of Robust Hotels Private Limited, as under pursuant to proposed scheme of arrangement is fair.

- B. Fair Value of Preference Shares and Debentures and Recommended fair Share Entitlement Ratio:

CHAPTER 5 - VALUATION APPROACHES

The valuation methodology to be adopted varies from case to case depending upon different factors affecting valuation. The basis of valuation depends upon the purpose of valuation, the type of business, the future prospects and other attendant circumstances.

Various Valuation approaches are explained below:

Net Asset Value

This methodology is likely to be appropriate for a business whose value is driven mainly from the underlying value of its assets rather than its comings, such as property holding and investment business. This method may also be appropriate for a business that is not making an adequate return on assets and for which a greater value can be realized by liquidating the business and selling its assets. This methodology can also assume the amount which can be realized by liquidating the business by selling off all the tangible assets of a company and paying off the liabilities.

Some of the most common techniques of veluation considered under this approach are to value a business enterprise on the following basis -

- <u>Book value</u>: This is simply a value based upon the accounting books of the business. In simple term, Assets less liabilities equals the owners' equity, which is the "Book Value" of the business.
- Adjusted poek value: This method involves reviewing each and every assets and liabilities on the company's balance sheet and adjusting it to
 reflect its estimated market value. The unrecorded and contingent liabilities are also considered at their fairly estimated value.
- 3. <u>Replacement value</u>: The asset valuation methodology essentially estimates the cost of replacing the tangible assets of the business taking into account the market value of various assets or the expenditure required to create the infrastructure more or less similar to that of a company being valued. Since the replacement methodology assumes the value of business as if a new business is set, this methodology may not be relevant in a going concern.

NSBP & Cc.

-15-

Discounted Cash Flow

- DCF methodology expresses the present value of a business as a function of its future cash earnings capacity. This methodology involves estimation of post-tax cash flows for the projected period, after taking into account the business's requirement of reinvestment in the terms of capital expenditure and incremental working capital. The value of a business so measured is discounted to the present time at an appropriate discount rate. This method is used to determine the present value of a business on a going concern assumption.
- When valuing a business on a DCF basis, the objective is to determ ne a net present value of the cash flows arising from the business over a future select period of time, which is called the explicit forecast period.
- Under the DCF methodology, value must be placed both on the explicit cash flows as stated above, and the origoing cash flows a company
 will generate after the explicit forecast period known as terminal value.
- 4. The discount rate applied to estimate the present value of free cash flows, is taken at the "Weighted Average Cost of Capital" (WACC). The principal elements of WACC are cost of equity (which is the desired rate of return for an equity investor given the risk profile of the company and associated cash flows), cost of preference, the post-tax cost of debt and the current capital structure of the company (a function of debt to equity to Preference ratio).
- Value obtained by using DCF method gives us the Enterprise Value; and adjustment for the Joans and Preference Capital as on the valuation date gives us the Equity Value.
- 6. This method is generally used when there is reasonable certainty on the timing, quantum and quality of the cash flows, which has its close coupling with the underlying assets (e.g. in case of a manufacturing company). It is the most commonly used valuation technique, and is widely accepted by valuers because of its intrinsic merits.

NSBP & Co.

- 17 -

THE MARKET APPROACH (RELATIVE VALUATION APPROACH):

Market value is also known as extrinsic value. The basis of market value is the assumption that if comparable Asset (or property) has fetched a certain price, then the subject asset (or property) will realize a price something near to it. There is a significant philosophical difference between discounted cash flow and relative valuation. In discounted cash flow valuation, we are attempting to estimate the intrinsic value of an asset based upon its capacity to generate cash flows in the future. In relative valuation, we are making a judgment on how much an asset is worth by looking at what the market is paying for similar assets. If the market is correct, on average, in the way it prices assets, discounted cash flow and relative valuations may converge. If, however, the market is systematically over pricing or under-pricing a group of assets or an entire sector, discounted cash flow valuations can deviate from relative valuations.

This method involves reviewing transactions for companies that are in the same or similar line of business as the company being valued and then applying the relevant pricing multiples to the subject company to determine its value. The method might involve private company transactions, public company transactions, as well as public company valuation measures using current share market data. The theory behind this approach is that valuation measures of similar companies that have been sold in arms length transactions should represent a good proxy for the specific company being valued. Depending on the source of data available and the underlying company being valued, a variety of valuation measures might be used including Enterprise Value (EV) to Sales, EV to EBITDA, EV to EBIT, Price to Farnings, etc. Adjustments are commonly made to these valuation measures before applying to the subject company to ensure an "apples-to-apples" company being valued.

Also, the equity value of the company can be derived by multiplying the market price (or weighted average market price) as on the appointed date with the number of equity share as on that date. The aforesaid derived value is also known as Market Capitalization.

NSBP & Co.

- 18 -

CHAPTER 6 - VALUATION METHODOLOGY ADOPTED - FINANCIAL INSTRUMENTS

The value of any asset, real or financial, is equal to the present value of cash flows expected from it. Hence determining the value of the preference shares and debentures shall require

An estimate of expected cash flows, and

ŝ

An estimate of required return;

in the present case, we have determined the fair value of the 12% Cumulative Redeemable Preference Shares and 0.1% Unsecured Non-Convertible Debentures by applying Discounted Cash Flow Method, since the future Cash flows from these Securities can be estimated to a reasonable extent.

Debt instruments and Cumulative Preference Shares promise to pay a stipulated stream of cash flows. This generally comprises of the periodic interests or dividends payment and the principal payment at the time of maturity.

Since the Cumulative preference shares promise to pay/ accumulate dividends irrespective of the financial performance of a company in a given year, these are considered to be carrying lesser risk as compared to their counterparts i.e. Non- Cumulative Preference shares. This has also been highlighted by Para 8.4 on Page 59 of ICAI Technical Guide on Valuation, 2009 Edition:-

"8.4 (a) Preference Shares may be cumulative preference share. In such case, the risk involved is still lower, with a corresponding effect on the rate of capitalization. In cases where there is uncertainty of future dividends, this is an important right and a preference share not carrying this right will be valued at a substantially lower figure."

NSBP & Co.

- 19 -

The value of the 12% Cumulative Redeemable Preference Shares and 0.1 % Unsecured Non-Convertible Debentures, keeping in view the aforementioned aspects has been calculated based on certain assumptions and terms of investments provided by the Management, which are as given below –

1. 12% Cumulative Redeemable Preference Shares ("CRPS")

Asian Hotels had invested in 12% Cumulative Redeemable Preference Shares of Robust Hotels. These preference shares of face value of Rs. 43 crores were acquired from JP Morgan at Rs. 61.53 crores (approx.) in the year 20.0-11. These were initially issued in the year 2008-09 to Citicorp Finance India Limited In the year 2008-09. The CRPS are redeemable at a premium of 10 % per annum. We understand from Management's representation that till date no dividend has been paid by Robust Hotels (Dividend cumulated till 31* March, 2016 is Rs. 39,07,46,301/-).

i. Face Value of Security

43,00,000 12% cumulative Redeemable Preference Shares of Rs. 100/- each i.e. Face Value equal to Rs. 43 crores;

II. Cash Flow to the Security Holder

Period: As per Management representation and from past records, Robust Hotels has extended the tenure of redemption to 03rd September, 2028. Hence, the total period for the cash flows (i.e. dividends and redemption premium) as per the terms of investments and Management representation from the valuation date i.e. March 31, 2016 is taken till September 03, 2028. The Securities were initially issued on September 04, 2008;

NSBP & Co.

- 20 -

iii. Terminal Value

The terminal value of the 12% Cumulative Redeemable Preference Shares has been taken as the principal amount and the 10% Premium on redemption calculated from September, 2008 to September, 2028.

Value of premium on redemption taken at appropriate Discounting factor comes at Rs. 21.04 crores (approximately);

It is clarified that arrears of cividend accumulated on the 12% Cumulative Redeemable Preference Shares as on 31st March 2016 have also been considered and included in the valuation.

iv. Discounting Factor

In determining the present value of the cash flows that are available to holder of 12% CRPS, the discount rate used is 12% i.e. the dividend rate. This reflects the opportunity cost of the holder i.e. the post-tax expectation of the holder of these instruments. The 12% discounting rate has been used, considering the relative low risk associated due to the feature of Cumulative Dividends being attached with the financial instrument.

Therefore, on the basis of above mentioned factors, the Fair Value as on 31st March, 2016 of the 12% Cumulative Redeemable Preference Shares as per DCF Method works out to Rs. 64.10 crores (approximately)

2. 0.1% Unsecured Redeemable Non-Convertible Debentures (Unsecured NCDs)

GIS Hote's had invested in 0.1% Unsecured Rodesmable Non-Convertible Debentures of Rs.100 (Unsecured NCDs) each Active Hotels amounting to Rs. 205 crores, which consequent to the proposed demerger shall stand vested in Asian Hotels. Interest outstanding as on March 31, 2016 is Rs. 18.45 lacs.

NSBP & Co.

- 21 -

L Face Value of Security

2.05 crores 0.1% Unsecured Non-Convertible Debentures of Rs. 100/- each i.e. Rs. 205 crores

ii. Cash Flow to the Security Holder

Period: The total period for the cash flows (i.e. interest) from the valuation date i.e. March 31, 2016 taken as per the terms of investments is 9 years i.e. till March 31, 2025

III. Terminal Value

The terminal value of the 0.1% Unsecured NCDs has been taken as the principal amount to be repaid upon maturity of the said security.

iv. Discounting Factor

In determining the present value of the cash flows that are available to holder of 0.1% NCDs, the discount rate used is 8.4%. This reflects the opportunity cost of the holder i.e. how much post-tax return a holder of the said Securities would expect from such Securities.

Therefore, on the basis of above mentioned factors, the Fair Value as on 31^{er} March, 2015 of the 0.1% Unsecured Non-Convertible Debentures as per DCF Method works out to Rs. 100.62 crores

Therefore, as per the above calculations, the Fair Value as on 31st March, 2016 of the Securities in Consideration i.e. 12% CRPS and 0.1% unsecured NCDs, according to the method detailed above, works out to Rs. 164.72 crores (approximately).

NSBP & Co.

CHAPTER 7 - VALUATION METHODOLOGY ADOPTED - ROBUST HOTELS PRIVATE LIMITED

The proposed transaction in the present case between Asian Hotels and Robust Hotels has been valued on the basis of arm's length price between Asian Hotels and Robust Hotels. The value of the hotel business of Robust Hotels has been ascertained using average of Discounted Cash Flow method and Net Asset Value method, also keeping the control aspect consideration involved in view. Net Asset Value has also been taken for the purpose of valuation, considering that to any prospective buyer in a hotel business, which also owns the hotel property the value of property is as important as the intome that can be earned from it.

The management of the hotel is with the Robust Hotels. The average value of the Hotel business of Robust Hotels has been ascertained using Discounted Cash Flow method and Net Asset Value method,

1. Discounted Cash Flow Method:

As per "The Valuation of Company shares and business" by Adamson & Adamson, 5th edition published in 1930 in McCathie's case, it was decided as under --

"A Parchaser of shares in a company which is a going concern does not usually purchase them with a view to attempting to wind up the Company.... The real value of the share will depend more on the profits which the Company has been making and should be capable of making, having regard to its nature of business..."

The value of Robust Hotels as per the Discounted Cash Flow Method has been calculated based on assumptions and business plans provided by the Menagement, using Free cash flow to Firm approach, and subsequently reducing the Fair Value of Non-Equity claims in Robust Hotels to arrive at Equity Value of Robust Hotels.

This approach has been substantiated in 6th Chapter of Damodaran on Valuation, 2rd Edition (Page - 209) :

NSBP & Co.

-23 -

"... The Value of Equity can be extracted from the value of firm by subtracting the market value of outstanding debt"

"In theory, the value of equity obtained from the firm valuation and equity valuation approaches should be the same if you make consistent assumptions about financial leverage"

Calculation using the above mentioned approach is as given below --

a) Free Cash Flow

Explicit Period: FY 2016-17 to FY 2026-27

Perpetual value: The perpetuity value has been calculated on the basis of financials of FY 26 -27.

It is substantiated from the quotation from Page 7 & 8 of "Technical guide on Share Valuation, by The Institute of Chartered Accountants of India, Published in Year 2009 -

"Cash flow should reasonably capture the growth prospects and earnings capability of a company. The forecasted period should necessarily cover the entire business cycle of a company"

b) Discounting Factor - Weighted Average Cost of Capital (WACC)

In determining the present value of the cash flows that are available to firm, the discount rate used is cost of capital of the entity, i.e. WACC. This reflects the opportunity cost of the company. WACC represents the industry's Cost of Capital i.e. what shall be the Average cost of capital for an industry specific company in a Perfect Market. Robust Hotels has issued to its holding company (G.S. Hotels). Debentures at 0.1% Coupon rate which is substantially lower than market rate. Considering that if in future the shareholders intend to sell the state of capital to company to a third party, they would require such capital be repaid as well, we have taker in our workings normalized to capital to (New Dehill to be capital to the state of capital to the shareholders intend to sell the state of capital to (New Dehill to be capital to the state of capital to the state of capital to the state of the state o

Hence, it has been considered important to discount the capital employed at normalized rates to give a true and fair very to Rock structures. WACC is arrived at by using the following formula:

NSBP & Co.

- 24 -

WACC = (Cost of Equity * Shareholders Funds/ Total Funds) +

(Cost of Preference * Preference Share Capital/ Total Funds) +

(Cost of Interest Bearing Debt * Interest Bearing Debt/ Total Funds)

Note: Capital Employed i.e. Shareholders' Funds, Preference Share Capital, and Interest Bearing Debt denotes the carrying values as appearing in . the balance sheet on the valuation date, including securities premium received thereon, or excluding discount given on issue (if any).

c) Cost of Equity

The cost of equity has been determined by using Capital Asset Pricing model (CAPM). This has been computed as follows:

Cost of equity = Rf + [Rm - Rf] (Beta)

Where,

<u>Rf</u> denotes risk free rate of return as per the "Public Debt Management Quarterly Report" for the quarter ending March 31, 2016 which is 7.46%.

<u>Rm</u> denotes return on diversified market portfolio return. Rm is considered **16.12%** which has been the market rate of return on Bombay Stock Exchange from April 1, 1979 to March 31, 2016.

Beta represents the systematic risk associated with investments. It is assumed that for shareholders the substitute opportunity for investment would be investment in SENSEX. Hence, we have assumed the shareholders' expectation equal to the market return (based on the return on BSE from 1979 till date).

The average beta for major listed hospitality sector companies in India is approximately 0.86, and considering that Robust Hotals has not yet fully stabilized its operations and Robust Hotels is a single hotel, unlisted company, and the age of property derive relatively new, we have considered Beta as 1.

NSBP & Co.

- 25 -

The Cost of equity (ke) comes out to be 16.12%

d) Cost of Debt

The cost of interest bearing debt has been computed considering post tax cost of debt of the Robust Hotels. Robust Hotels has outstanding as on 31st March, 2016 0.1% Debentures of Rs. 205 crores, and Rs. 148.24 crores, including outstanding interest on the principal which is - approximately Rs. 3 crores. Term Loan raised from HDFC Bank at 12.40%. However, considering that any rational long term investor in the hospitality industry, in an arm's length transaction investing in Unsecured Debentures of a company would expect a higher rate of return, we have taken cost of debentures to be at 12%.

Based on above figures and assumption, effective post-tax cost of term loan and debentures works out to 8.1.1% and 7.85% respectively.

e} Cost of Preference Capital

Robust Hotels had issued two classes of Preference Capital:

- > 1% Cumulative Redeemable Optionally Convertible Preference Shares to GJS Hotels, and
- 12% Cumulative Redeemable Preference Shares to Asian Hotels;
- The cost of Preference Capital has been computed considering Post CDT Cost of Preference Capital of Robust Hotels. Robust Hotels has issued preference shares to Asian Hotels carrying dividend rate of 12%. Considering normal expectation of any long term rational investor investing in an arm's length transaction in the Preference Share Capital of a company n the hotel industry, we have taken cost of preference shares to be as the dividend rate i.e. 12% and an effect of DDT has been grossed up theroupon.

Based on these assumptions and figures, effective post-CDT cost of 12% preference shares works out to 14.44%.

 GJS Hotels had invested in 1% Cumu ative Redeemable Optionally Convertible Preference Shares amounting to Rs.192,74 crores in FY 2013-14 and FY 2014-2015 in Robust Hotels. It has been represented to us that management of GJS Hotels and Bobust Hotels vide Board Resolutions dated 10th February, 2016 and 21st May 2016 respectively had resolved to convert this investment in Full ative

NSBP & Co.

- 26 -

Receemable Optionally Convertible Preference Shares to Compulsorily Convertible Preference Shares ("CCPS"). However, the conversion was not executed within FY 2015-16. Such conversion was effected on 1st October 2016.

As resolved earlier, on October 1st, 2015, the management of GIS Hotels and Robust Hotels have, pursuant to Sections 48 and Section 55 of Companies Act 2013 entered into a mutual agreement to convert the nature of Optionally Convertible Preference Shares to Compulsorily Convertible Preference Shares. Further, the dividend accumulated till date of conversion into CCPS has been waived off as mutually agreed. As such, the investment of GIS Hotels of Rs. 192,73,93,945/- in 89,64,623 1% CROCPS of Rs. 10/- will get converted into 6,02,31,061 number of equity shares of face value of Rs. 10 each at a conversion price of Rs.32/- per share in the current financial year, i.e 2016-2017.

Since it is evident that the Cumulative Redeemable Optionally Convertible Preference Shares are in true form Equity Share Capital and were not to be redeemed but converted into equity capital, as above, for the purpose of calculation of WACC, Cost of 1% Preference Capital has been taken equivalent to Cost of Equity Share Capital i.e. **16.12%**.

f) Cost of Capital

The WACC, considering the Fund Structure of Robust Hotels as on March 31, 2016, has been worked out to be **11.53%**, which has been used for the purpose of the valuation.

NSBP & Co.

- 27 -

g) Value in Perpetuity

The perpetuity value is the value of the business beyond the explicit forecast period. The last year free cash flows (FY 2026-27) have been considered for the purpose of computing perpetual value. A growth rate of 3% has been considered in the perpetuity for the purpose of computing perpetuity value.

Therefore, on the basis of above mentioned factors, the Enterprise Value of Robust Hotels as per DCF Method works out to Rs. 542.51crores as on 31st March, 2016

2. Net Asset Value approach:

The second approach which has been used to measure the fair value of Robust Hotels is the Net Asset Value (NAV) method. Hotel industry is a highly asset heavy sector, therefore the other approach which has been used to value Robust Hotels is the Net Asset Method. Further, Real Estate which is a major component of the total assets of a hotel business, being in a good location has the rental earning capacity or capital appreciation prospects with possibility of more hotels opening up in the vicinity in the near future. Hence, in the given scenario of acquisition of 100% control value in a hospitality sector company, it has been considered vital to take into account the fair value of the assets as well. Hence, all the assets pertaining to Robust Hotels have been valued as per the asset valuation report and the carrying values in the balance sheet and as on 31st March 2016, as provided by the Management; the liabilities have been taken as per the carrying amounts in the balance sheet of Robust Hotels as on 31st March, 2016

Therefore, on the basis of the Adjusted Net Asset Value method, the Value of Robust Hotels works out to Rs. 711.42 crozes (approximately)

NSBP & Co.

- 28 -

Considering the fact that the Hotel Business is intended to be continued on a 'going concern' basis and that the hotel industry is an asset heavy sector and any person acquiring shares in Robust Hotels will also end up acquiring controlling interest over the huge pool of assets, we have considered it appropriate to give weightage of '1' to the value determined using 'Discounted Cash Flow approach' and weightage of '1' to value determined using 'Discounted Cash Flow approach' and weightage of '1' to value determined using 'Discounted Cash Flow approach' and weightage of '1' to value determined using 'Discounted Cash Flow approach' and weightage of '1' to value determined using 'Discounted Cash Flow approach'.

The Average Enterprise value of Robust Hotels works out to be Rs. 626.97 crores (approximately). Accordingly, the Equity Value Le. value only to the shareholders of the Robust Hotels which is arrived at after deducting from the above derived enterprise value, the fair value of <u>Non-Equity</u> <u>Claim</u> i.e. 12% preference capital, 0.1% debentures and Loans comes at Rs. 314.00/- crores (Refer Chapter – 6 for values of 12% Preference Shares and Debentures)

Given the true nature of 1% CROCPS being Equity Share Capital, we have taken the value of Robust Hotels on fully diluted equity shareholding bases. As on 31st March, 2016 Robust Hotels has total number of issued and paid up equity shares outstanding of 9,39,42,769 and equivalent number of preference shares to be converted into equity as per terms highlighted above stand at 6,02,31,061. The total number of diluted equity shares thus stands at 15,41,73,830.

Therefore, estimated diluted equity value per share of Robust Hotels comes at Rs. 20.37/- approximately, rounded off to Rs 20/-

NSBP & Co.

- 29 -

CHAPTER 8 - VALUATION RECOMMENDATION

On the basis of our valuation estimate and derivation in accordance with preceding chapters, we are of the opinion that the share entitlement ratio as per below table of equity shares of face value Rs. 10/- each and at Premium of Rs. 10/- (total value – Rs. 20 per share, refer chapter 7 above) per share of Robust Hotels is fair and reasonable:

| Particulars | Value (In Rs. Crores) | Number of units | Value Per unit | Share Entitleme (per 100 units) |
|--|--------------------------|--------------------|-------------------|------------------------------------|
| 12% Cumulative Redeemable Preference Shares | 64.10 | 43,00,000 | 149.06 | 745 |
| 0.1% Unsecured Redeemable Non-Convertible Debentures | 100.62 | 2,05,00,000 | 49.09 | 245 |

EXECUTIVE SUMMARY

SUB: Opinion on the Market value of the building along with the fixtures available as on 16 th May 2016 at No 365, Anna Salai, Teynampet, Chennai-600018.

On instructions from M/s. Robust Hotels Private Ltd, Chennai ("Client"), this evaluation exercise is undertaken in respect of the Land and Building of the "Hotel Hyatt Residency" located at No 365, Anna Salai, Teynampet, Chennai—600 018, Tamil Nadu, IN ("Subject property) along with the machineries and fixtures installed / erected therein and excluding the art work done in the hotel.

The scope of the engagement, as defined by the Client requires a realistic assessment of the present market value of the Immovables and movables comprised in the Subject property under the comparable method. It excludes compliance study and evaluation of deviations, if any. The income Discounting approach has not been adopted for want of data.

The ownership over the land of an undivided share of 1.35 Lakh Sqft out of 1.79 lakh Sqft along with partly finished structure of an extent of 6.31 Lakh Sqft and also the movables including machineries erected therein were acquired by M/s Robust Hotels Pvt Ltd vide Sale Deed document no 752/2007 dated 5th Jul 2007 ("Title document").

It is understood that after purchasing the property on as-is-where-is condition, M/s Robust Hotel Pvt Ltd under took the finishing works and duly obtained the Completion Certificate from CMDA vide ref no C.C.No.EC/South/105/2011 Dtd 25/08/2011 for Double basement + Ground floor + 15 Floors with a subject to condition that the security deposit shall not be refunded in the view of the Cited additional area constructed in the top most storey not covered in the approved plan. Direction to pay the development charges for the additional area constructed in the top most floor. We are not updated on the present status of the aforesaid proceedings.

Key Pointers:

The property is located in one of the most commercially prominent location viz Teynampet.

The Scope of our engagement is for estimating the realistic market value of the Land, Structure and the machineries and fixtures comprised in the Subject Hotel. This opinion repot of assessment and evaluation is for the consumption of client and its holding company only.

The Land Valuation, as defined by the scope has been conducted under the Sale Comparable Method and excludes all other methods including income Discounting method and the Deviation & risk analysis.

Regd Off : No 3, Valhiyar Thottam 1^{al} Street, Rangarajapuram, Kodambakkam, Chennai 600 024. Tel No. 044 42133181, www.sreenidhi.net Privileged and Confidentia

We have adopted the Comparable method for estimating the Land value and Depreciated Replacement value for the Structure.

With regard to the Land valuation, we have considered the Un-divided share of land as one single land parcel and accordingly arrived at the value.

We are informed that though the shell of the property was completed as early as 1998 itself, the construction was stalled owing to financial reasons. The overall construction was eventually completed only in 2007 and the same has been considered as the year of completion for our valuation purposes.

With regard to Machineries, We have relied upon the data provided by the client to estimate the make, model and age of the machines. We have not perused the invoices of these machines.

As most of the machineries are more than a decade old, their technology platforms stands replaced with newer versions leaving the existing platforms redundant. For such machineries, we have attempted to arrive at a reasonable utility value for the machinery & its technology based on comparable sale instances in the recent past. We have extensively relied upon the data available over the internet while valuing of these machineries.

With regard to the Fixtures, we have largely relied upon the data furnished by the Management. Few items were verified on a random sampling basis and not material discrepancies were observed.

Dear Sir/s,

This report is issued in connection with the proposed Scheme of Arrangement between GJS Hotels Limited ('GJSHL'), Asian Hotels (East) Limited ('AHEL') and Robust Hotels Private Limited ('RHPL') and their respective shareholders pursuant to the provisions of Section 230 of the Companies Act 2013 (the 'Scheme' or the 'Scheme of Arrangement').

We, M/s D & A Financial Services (P) Ltd, SEB1 registered Merchant Banker, having SEBI Registration No. INM000011484, have been engaged by you to give our fairness opinion on the share entitlement ratio recommended by M/s NSDP & Co., Chartered Accountants, having its office at Tribhuvan Complex, Ishwar Nagar, Mathura Road, New Delhi-110065 vide their report dated 2nd February 2017.

The Scheme is subject, inter alia, to (i) approval of the Hon'ble National Company Law Tribunal ("NCLT") of respective jurisdiction and (ii) other statutory approval(s) as may be required in this repard.

1. Reason and Rationale of the Draft Scheme of Arrangement

- i. AHEL is a well-established hospitality company engaged in the business of running the 'Hyatt Regency' hotel in Salt Lake in Kolkata. It also has substantial interests in the hospitality business through its subsidiaries, being GJSHL which is a direct and wholly owned (100%) subsidiary of AHEL and RHPL which is a subsidiary of GJSHL. While RHPL is running the 'Hyatt Regency' hotel in Anna Salai in Cheonai, GJSHL is pursuing a project for establishing a hotel in Bhubaneshwar, Odisha. The operations of GJSHL have been funded primarily by AHEL by a combination of equity capital and loan. The operations of RHPL have also been funded primarily by AHEL and GJSHL by a combination of equity and preference capital and debt. While AHEL has been in the business for several years, the business of GJSHL and RHPL is relatively new. The said Companies have been looking at suitable proposals for restructuring for simplifying and rationalizing their holding and financial structure and pursuing their business more beneficially.
- In the circumstances, it is considered desirable and expedient to (1) reconstruct GJSHL and AHEL by demerging the Demerged Undertaking of GJSHL (including investment in RHPL) to AHEL and (2) reorganizing and converting the Preference Share Capital and Debentures of RHPL in the manner and on the terms and conditions stated in this Scheme of Arrangement.
- iii. The Scheme will simplify the holding structure of the subsidiaries of AHEL and result in RHPL also becoming a direct subsidiary of AHEL consequent to transfer of the investment of GJSHL in RHPL to AHEL as part of the demerger. The investment function of holding and monitoring investments in shares and securities of other bodies corporate is already undertaken by AHEL on a much larger scale. As such the total investment in RHPL will be held and monitored as part of the investment portfolio of AHEL more efficiently and advantageously. The same will also enable GJSHL to pursue operating business with greater focus and attention.
- iv. The reorganisation and conversion of the Preference Share Capital and Debentures of RHPL into Equity Share Capital in terms of the Scheme will suitably simplify and rationalise the financial structure of RHPL. The same will also enable RHPL to improve its performance with better operating parameters, including a more appropriate debt equity ratio.
 - v. As such, the Scheme will suitably realign and adjust the relationship between the capital and assets of the respective Companies and enable them to pursue their business more conveniently and advantageously.
 - vi. The Scheme will have beneficial results for the said Companies, their shareholders and all concerned.

2. Scope and Purpose of the Opinion

The Company has appointed M/s NSBP & Co., Chartered Accountants ('valuer'), to recommend a fair and equitable share entitlement ratio for reorganisation and conversion of the 12% Cumulative Redeemable Preference Shares ("CRPS") and 0.1% Unsecured Redeemable Non-Convertible Debentures ("Unsecured Redeemable NCD") of Robust Hotels Private Limited ("RHPL" or "Robust Hotels") into Equity Shares of RHPL at fair value.

The management of the AHEL has engaged has engaged M/s D & A Financial Services (P) Ltd to submit its the Fairness Opinion to the Board of Directors of AHEL on the fairness of Share Entitlement Ratio recommended by the valuer. Further this report has been issued as per the requirement of SEBI circular no CIR/CFD/CMD.16/2015 dated 30th November, 2015.

The purpose of the opinion is to safeguard the interest of the shareholders and that of the companies involved in the Scheme and this opinion shall be made available to the shareholders of the relevant Companies at the time of their meeting to pass the necessary resolution for the Scheme and to any other relevant authority.

Disclaimer: We have assumed and relied upon, without independent verification, the accuracy and completeness of all information that was publicly available or provided or otherwise made available to us by management of AHEL for the purpose of this Opinion. We have not carried out any independent verification of the accuracy and completeness of all information as stated above. We have not reviewed any other documents of the Company other than those stated herein. We have not assumed any obligation to conduct, nor have we carried out any independent physical inspection or title verification of the property, investments etc. interests of AHEL, GJSHL and RHPL and accept no responsibility therefore,

We have not reviewed any internal management information statements or any non-public reports and instead with your consent we have relied upon information that was publicly available or provided or otherwise made available to us by AHEL for the purpose of this valuation. We are not experts in the evaluation of litigation or other actual or threatened claims.

3. Sources of Information

For arriving at the opinion set forth below, we have:

1. Perused the Draft Scheme of Arrangement;

 Valuation Report recommending Share entitlement ratio dated 2nd February 2017 given by M/s NSBP & Co. having its office at Tribhuvan Complex, Ishwar Nagar, Mathura Road, New Delhi-110065.

4. Approach followed for valuation.

The value of the 12% Cumulative Redeemable Preference Shares and 0.1% Unsecured Non-Convertible Debentures of RHPL has been arrived at by M/s NSDP & Co, Chartered Accountants by applying Discounted Cash Flow Method while the value of hotel business of RHPL has been ascertzined by them by using average of Discounted Cash Flow method and Net Asset Value method.

The valuations and the share entitlement ratio recommended on the basis of the same have been arrived at by the consideration of the aforesaid commonly used and accepted methods which are appropriate.

M/s NSBP & Co, Chartered Accountants, while arriving at the share entitlement ratio has considered the valuation report of valuation of Land, Building, Furniture/ Interior Decorations (excluding Arts), and Machinery of RHPL ("Specified Assets") done by M/s Sreenidhi Valuation Consultancy Services, Asset Valuer, having its office at No.3, Vathiyar Thottam, 1st Street, Rangarajapuram, Kodambakkam, Chennai 600 024

5. Conclusion

Based on our examination of the draft Scheme of Arrangement and the Valuation Report of M/s NSBP & Co. dated 02 February, 2017, we are of the opinion that the proposed share entitlement ratio as recommended by the valuer for conversion of 12% Cumulative Redeemable Preference Shares ("CRPS") and 0.1% Unsecured Redeemable Non-Convertible Debentures ("Unsecured NCD") of Robust Hotels Private Limited, as under pursuant to proposed scheme of arrangements is fair.

A. Fair value of Equity Share of RHPL: Rs.20/- per share.

B. Fair Value of Preference Shares and Debentures and Recommended fair Share Entitlement Ratio:

| Particulars | Value (In Rs. Crores) | Number of units | Value Per unit | Equity Share Entitlement (per 100 units) |
|--|--------------------------|-----------------|----------------|--|
| 12% Cumulative Redeemable Preference Shares of RHPL | 64.10 | 43,00,000 | 149.06 | 745 |
| 0.1% Unsecured Redeemable Non-Convertible Debentures of RHPL | 100.62 | 2,05,00,000 | 49.09 | 245 |

2. Asian Hotels (East) Limited

.... Applicants

Explanatory Statement under Section 230(3) read with Section 232(2) of the Companies Act, 2013.

1. Meeting for the Scheme of Arrangement

This is a Statement accompanying the respective Notices convening meetings of Equity Shareholders and Unsecured Creditors of Asian Hotels (East) Limited, being the Applicant Company No.2 above named (hereinafter referred to as "**AHEL**") for the purpose of their considering and if thought fit, approving, with or without modification, the **proposed** Scheme of Arrangement between GJS Hotels Limited, being the Applicant Company No.1 above named (hereinafter referred to as "**GJSHL**"), the said AHEL, being the Applicant Company No.2 above named and Robust Hotels Private Limited (hereinafter referred to as "**GJSHL**"), the said AHEL, being the Applicant Company No.2 above named and Robust Hotels Private Limited (hereinafter referred to as "**RHPL**") and their respective shareholders whereby and whereunder it is proposed to (1) reconstruct GJSHL and AHEL by demerger of the Demerged Undertaking of GJSHL (including investment in RHPL) to AHEL and (2) reorganise and convert the outstanding 43,00,000, 12% Cumulative Redeemable Preference Shares of Rs.100/- each of RHPL ("**Specified Preference Shares**") and 1,55,00,000 0.1% Unsecured Cumulative Non-Convertible Debentures of Rs.100/- each of RHPL ("**Specified Debentures**") into Equity Shares of RHPL, in the manner and on the terms and conditions stated in the said Scheme of Arrangement. The salient features of the Scheme of Arrangement are given in paragraph 5 of this Statement. The detailed terms of the arrangement will appear from the enclosed draft of the Scheme.

2. Date, time and venue of Meeting

Pursuant to an order dated 21st December, 2017 as modified by an order dated 4th January, 2018, passed by the Hon'ble National Company Law Tribunal, Kolkata Bench ("**Tribunal**") in Company Application No. *(CAA) No.516/KB* of 2017, separate meetings of the Equity Shareholders and Unsecured Creditors of AHEL will be held for the purpose of their considering and if thought fit approving of, with or without modification(s), the said Scheme of Arrangement at Hyatt Regency Kolkata, JA-1, Sector-III, Salt Lake City, Kolkata 700 098 on Wednesday, the 21st day of February, 2018 at 11:00 a.m. and 1:00 p.m. respectively.

3. Rationale and benefits

The circumstances which justify and/or have necessitated the said Scheme of Arrangement and the benefits of the same are, inter alia, as follows:-

- (A) AHEL is a well established hospitality company engaged primarily in the business of running the `Hyatt Regency' hotel at Salt Lake in Kolkata. In addition, AHEL holds and is engaged in the business of investing in shares and securities of other bodies corporate on both, a short term basis (current investments) and long term basis (non-current investments). AHEL thus also has substantial interests in the hospitality business through its subsidiaries, being GJSHL which is a direct and wholly owned (100%) subsidiary of AHEL and RHPL which is a subsidiary of GJSHL. While RHPL is running the `Hyatt Regency' hotel at Anna Salai, Teynampet in Chennai, GJSHL is pursuing a project for establishing a hotel in Bhubaneshwar, Odisha. The operations of GJSHL have been funded primarily by AHEL by a combination of equity capital and loan while the operations of RHPL have also been funded primarily by AHEL and GJSHL and RHPL is relatively new. The said Companies have been looking at suitable proposals for restructuring with the objective, inter alia, of simplifying and rationalising their holding and financial structure and pursuing their business more conveniently and beneficially.
- (B) In the circumstances and as part of an overall restructuring plan, it is considered desirable and expedient to (1) reconstruct GJSHL and AHEL by demerging the Demerged Undertaking of GJSHL (including investment in RHPL) to AHEL and (2) reorganise and convert the outstanding 43,00,000 12% Cumulative Redeemable Preference Shares of Rs.100/- each of RHPL ("Specified")

Preference Shares") and 1,55,00,000 0.1% Unsecured Cumulative Non-Convertible Debentures of Rs.100/- each of RHPL ("Specified Debentures") into Equity Shares of RHPL, in the manner and on the terms and conditions stated in the said Scheme of Arrangement.

- (C) The demerger will simplify the holding structure of the subsidiaries of AHEL and result in RHPL also becoming a direct wholly owned (100%) subsidiary of AHEL consequent to transfer of the investment of GJSHL in RHPL to AHEL as part of the demerger. Accordingly, following the demerger, both companies, GJSHL and RHPL will be directly held by AHEL. The same will enable AHEL to optimise returns from its investments in its subsidiaries and to hold such investments more conveniently. The activity of holding and monitoring investments in shares and securities of other bodies corporate, including taking decisions and exercising rights in respect of such investments is already undertaken by AHEL on a much larger scale. As such the investment in RHPL will be held and monitored in AHEL more efficiently and advantageously without detracting from the hotel operating business carried on directly by AHEL or diluting focus thereon.
- (D) The demerger will enable GJSHL to pursue operating business with greater focus and attention and facilitate the business considerations and factors applicable to the same to be addressed more effectively and adequately by GJSHL without the responsibility of monitoring investments in RHPL. The demerger will also enable independent evaluation of the said business of GJSHL and facilitate running and operation of such business and growth and development plans thereof to be funded independently.
- (E) The demerger will result in appropriate combination and consolidation of the investment business (Demerged Undertaking) of GJSHL with the investment business of AHEL. Such combined and consolidated investment business in AHEL will be managed and pursued more advantageously and effectively in AHEL.
- (F) The reorganisation and conversion of the Specified Preference Shares and Specified Debentures of RHPL into Equity Share Capital in terms of the Scheme will suitably simplify and rationalise the financial structure of RHPL. The same will also enable RHPL to improve its performance with better operating parameters, including a more appropriate debt equity ratio, and enhance its capacity to raise and access funds for growth and development of its business. The conversion into equity will also link returns more closely to performance and provide greater flexibility to the financial structure of RHPL.
- (G) As such, the Scheme will enable AHEL and its subsidiaries to pursue their businesses more conveniently and advantageously and unlock shareholders value.
- (H) The Scheme will suitably realign and adjust the relationship between the capital and assets of the respective Companies and have beneficial results for the said Companies, their shareholders and all concerned.

As will be apparent from the aforesaid table, GJSHL is a wholly owned (100%) subsidiary of AHEL while RHPL is a 68.06% subsidiary of GJSHL. Thus RHPL is also a step down subsidiary of AHEL. All the Equity and Preference Shares of RHPL are held by and between AHEL and GJSHL, as aforesaid.

2.3 In addition to the above, AHEL had also given a loan (short term borrowing) of Rs.373.14 crores to GJSHL and GJSHL had subscribed to and held 2,05,00,000 0.1% Unsecured Cumulative Non-Convertible Debentures of Rs.100/- each issued by RHPL as on the Appointed Date. It is clarified that 50,00,000 Debentures out of the said 2,05,00,000 0.1% Unsecured Cumulative Non-Convertible Debentures of Rs.100/- each issued by RHPL have since been redeemed by RHPL on 27th September, 2016. It is further clarified that the terms applicable to 89,64,623 1% Cumulative Redeemable Optionally Convertible Preference Shares of Rs.10/- each issued earlier by RHPL were varied on 1st October 2016 to make the said Preference Shares convertible compulsorily. Such Compulsorily Convertible Preference Shares of Rs.10/- each will stand converted into Equity Shares accordingly before 31st March, 2017 in accordance with their terms.

3. Objects and Reasons:

- i. AHEL is a well established hospitality company engaged primarily in the business of running the `Hyatt Regency' hotel at Salt Lake in Kolkata. In addition, AHEL holds and is engaged in the business of investing in shares and securities of other bodies corporate on both, a short term basis (current investments) and long term basis (non-current investments). AHEL thus also has substantial interests in the hospitality business through its subsidiaries, being GJSHL which is a direct and wholly owned (100%) subsidiary of AHEL and RHPL which is a subsidiary of GJSHL. While RHPL is running the `Hyatt Regency' hotel at Anna Salai, Teynampet in Chennai, GJSHL is pursuing a project for establishing a hotel in Bhubaneshwar, Odisha. The operations of GJSHL have been funded primarily by AHEL by a combination of equity capital and loan while the operations of RHPL have also been funded primarily by AHEL and GJSHL are business of GJSHL and RHPL is relatively new. The said Companies have been looking at suitable proposals for restructuring with the objective, inter alia, of simplifying and rationalising their holding and financial structure and pursuing their business more conveniently and beneficially.
- ii. In the circumstances and as part of an overall restructuring plan, it is considered desirable and expedient to (1) reconstruct GJSHL and AHEL by demerging the Demerged Undertaking of GJSHL (including investment in RHPL) to AHEL and (2) reorganise and convert the outstanding 43,00,000 12% Cumulative Redeemable Preference Shares of Rs.100/- each of RHPL ("Specified Preference Shares") and 1,55,00,000 0.1% Unsecured Cumulative Non-Convertible Debentures of Rs.100/- each of RHPL ("Specified Debentures") into Equity Shares of RHPL, in the manner and on the terms and conditions stated in this Scheme of Arrangement.
- iii. The demerger will simplify the holding structure of the subsidiaries of AHEL and result in RHPL also becoming a direct wholly owned (100%) subsidiary of AHEL consequent to transfer of the investment of GJSHL in RHPL to AHEL as part of the demerger. Accordingly, following the demerger, both companies, GHSHL and RHPL will be directly held by AHEL. The same will enable AHEL to optimise returns from its investments in its subsidiaries and to hold such investments more conveniently. The activity of holding and monitoring investments in shares and securities of other bodies corporate, including taking decisions and exercising rights in respect of such investments is already undertaken by AHEL on a much larger scale. As such the investment in RHPL will be held and monitored in AHEL more efficiently and advantageously without detracting from the hotel operating business carried on directly by AHEL or diluting focus thereon.
- iv. The demerger will enable GJSHL to pursue operating business with greater focus and attention and facilitate the business considerations and factors applicable to the same to be addressed more effectively and adequately by GJSHL without the responsibility of monitoring investments in RHPL. The demerger will also enable independent evaluation of the said business of GJSHL and facilitate running and operation of such business and growth and development plans thereof to be funded independently.
- v. The reorganisation and conversion of the Specified Preference Shares and Specified Debentures of RHPL into Equity Share Capital in terms of the Scheme will suitably simplify and rationalise the financial structure of RHPL. The same will also enable RHPL to improve its performance with better operating parameters, including a more appropriate debt equity ratio, and enhance its capacity to raise and access funds for growth and development of its business. The conversion into equity will also link returns more closely to performance and provide greater flexibility to the financial structure of RHPL.
- vi. As such, the Scheme will enable AHEL and its subsidiaries to pursue their businesses more conveniently and advantageously and unlock shareholders value.
- vii. The Scheme will suitably realign and adjust the relationship between the capital and assets of the respective Companies and have beneficial results for the said Companies, their shareholders and all concerned.

- 4.7 For the removal of doubts, it is clarified that to the extent that there are inter-company loans, deposits, balances or other outstandings as between AHEL and GJSHL in relation to the Demerged Undertaking, the same shall stand cancelled consequent to transfer of the Demerged Undertaking to AHEL and the obligations in respect thereof shall come to an end. Due effect of such cancellation shall be given in the books of account accordingly with effect from the Appointed Date as a result of such cancellation of inter-company loans, deposits, balances or other outstandings and there would be no accrual of interest or any other charges in respect of the same. The loan (short term borrowing) taken by GJSHL from AHEL in relation to the Demerged Undertaking as on the Appointed Date shall stand cancelled accordingly consequent to transfer of the Demerged Undertaking to AHEL.
- 4.8 The demerger and transfer of the Demerged Undertaking of GJSHL to AHEL in terms of this Scheme shall be deemed to have taken place and come into effect prior to reorganisation of Share Capital and Debentures of RHPL in terms of Part III of this Scheme.

CHAPTER 5 - VALUATION APPROACHES

The valuation methodology to be adopted varies from case to case depending upon different factors affecting valuation. The basis of valuation depends upon the purpose of valuation, the type of business, the future prospects and other attendant circumstances.

Various Valuation approaches are explained below:

Net Asset Value

This methodology is likely to be appropriate for a business whose value is driven mainly from the underlying value of its assets rather than its comings, such as property holding and investment business. This method may also be appropriate for a business that is not making an adequate return on assets and for which a greater value can be realized by liquidating the business and selling its assets. This methodology can also assume the amount which can be realized by liquidating the business by selling off all the tangible assets of a company and paying off the liabilities.

Some of the most common techniques of veluation considered under this approach are to value a business enterprise on the following basis -

- <u>Book value</u>: This is simply a value based upon the accounting books of the business. In simple term, Assets less liabilities equals the owners' equity, which is the "Book Value" of the business.
- Adjusted poek value: This method involves reviewing each and every assets and liabilities on the company's balance sheet and adjusting it to
 reflect its estimated market value. The unrecorded and contingent liabilities are also considered at their fairly estimated value.
- 3. <u>Replacement value</u>: The asset valuation methodology essentially estimates the cost of replacing the tangible assets of the business taking into account the market value of various assets or the expenditure required to create the infrastructure more or less similar to that of a company being valued. Since the replacement methodology assumes the value of business as if a new business is set, this methodology may not be relevant in a going concern.

NSBP & Cc.

-15-

Discounted Cash Flow

- DCF methodology expresses the present value of a business as a function of its future cash earnings capacity. This methodology involves estimation of post-tax cash flows for the projected period, after taking into account the business's requirement of reinvestment in the terms of capital expenditure and incremental working capital. The value of a business so measured is discounted to the present time at an appropriate discount rate. This method is used to determine the present value of a business on a going concern assumption.
- When valuing a business on a DCF basis, the objective is to determine a net present value of the cash flows arising from the business over a future select period of time, which is called the explicit forecast period.
- Under the DCF methodology, value must be placed both on the explicit cash flows as stated above, and the origoing cash flows a company
 will generate after the explicit forecast period known as terminal value.
- 4. The discount rate applied to estimate the present value of free cash flows, is taken at the "Weighted Average Cost of Capital" (WACC). The principal elements of WACC are cost of equity (which is the desired rate of return for an equity investor given the risk profile of the company and associated cash flows), cost of preference, the post-tax cost of debt and the current capital structure of the company (a function of debt to equity to Preference ratio).
- Value obtained by using DCF method gives us the Enterprise Value; and adjustment for the Joans and Preference Capital as on the valuation date gives us the Equity Value.
- 6. This method is generally used when there is reasonable certainty on the timing, quantum and quality of the cash flows, which has its close coupling with the underlying assets (e.g. in case of a manufacturing company). It is the most commonly used valuation technique, and is widely accepted by valuers because of its intrinsic merits.

NSBP & Co.

- 17 -

THE MARKET APPROACH (RELATIVE VALUATION APPROACH):

Market value is also known as extrinsic value. The basis of market value is the assumption that if comparable Asset (or property) has fetched a certain price, then the subject asset (or property) will realize a price something near to it. There is a significant philosophical difference between discounted cash flow and relative valuation. In discounted cash flow valuation, we are attempting to estimate the intrinsic value of an asset based upon its capacity to generate cash flows in the future. In relative valuation, we are making a judgment on how much an asset is worth by looking at what the market is paying for similar assets. If the market is correct, on average, in the way it prices assets, discounted cash flow and relative valuations may converge. If, however, the market is systematically over pricing or under-pricing a group of assets or an entire sector, discounted cash flow valuations can deviate from relative valuations.

This method involves reviewing transactions for companies that are in the same or similar line of business as the company being valued and then applying the relevant pricing multiples to the subject company to determine its value. The method might involve private company transactions, public company transactions, as well as public company valuation measures using current share market data. The theory behind this approach is that valuation measures of similar companies that have been sold in arms length transactions should represent a good proxy for the specific company being valued. Depending on the source of data available and the underlying company being valued, a variety of valuation measures might be used including Enterprise Value (EV) to Sales, EV to EBITDA, EV to EBIT, Price to Farnings, etc. Adjustments are commonly made to these valuation measures before applying to the subject company to ensure an "apples-to-apples" company being valued.

Also, the equity value of the company can be derived by multiplying the market price (or weighted average market price) as on the appointed date with the number of equity share as on that date. The aforesaid derived value is also known as Market Capitalization.

CHAPTER 6 - VALUATION METHODOLOGY ADOPTED - FINANCIAL INSTRUMENTS

The value of any asset, real or financial, is equal to the present value of cash flows expected from it. Hence determining the value of the preference shares and debentures shall require

An estimate of expected cash flows, and

ŝ

An estimate of required return;

in the present case, we have determined the fair value of the 12% Cumulative Redeemable Preference Shares and 0.1% Unsecured Non-Convertible Debentures by applying Discounted Cash Flow Method, since the future Cash flows from these Securities can be estimated to a reasonable extent.

Debt instruments and Cumulative Preference Shares promise to pay a stipulated stream of cash flows. This generally comprises of the periodic interests or dividends payment and the principal payment at the time of maturity.

Since the Cumulative preference shares promise to pay/ accumulate dividends irrespective of the financial performance of a company in a given year, these are considered to be carrying lesser risk as compared to their counterparts i.e. Non- Cumulative Preference shares. This has also been highlighted by Para 8.4 on Page 59 of ICAI Technical Guide on Valuation, 2009 Edition:-

"8.4 (a) Preference Shares may be cumulative preference share. In such case, the risk involved is still lower, with a corresponding effect on the rate of capitalization. In cases where there is uncertainty of future dividends, this is an important right and a preference share not carrying this right will be valued at a substantially lower figure."

NSBP & Co.

- 19 -

The value of the 12% Cumulative Redeemable Preference Shares and 0.1 % Unsecured Non-Convertible Debentures, keeping in view the aforementioned aspects has been calculated based on certain assumptions and terms of investments provided by the Management, which are as given below –

1. 12% Cumulative Redeemable Preference Shares ("CRPS")

Asian Hotels had invested in 12% Cumulative Redeemable Preference Shares of Robust Hotels. These preference shares of face value of Rs. 43 crores were acquired from JP Morgan at Rs. 61.53 crores (approx.) in the year 20.0-11. These were initially issued in the year 2008-09 to Citicorp Finance India Limited In the year 2008-09. The CRPS are redeemable at a premium of 10 % per annum. We understand from Management's representation that till date no dividend has been paid by Robust Hotels (Dividend cumulated till 31* March, 2016 is Rs. 39,07,46,301/-).

i. Face Value of Security

43,00,000 12% cumulative Redeemable Preference Shares of Rs. 100/- each i.e. Face Value equal to Rs. 43 crores;

II. Cash Flow to the Security Holder

Period: As per Management representation and from past records, Robust Hotels has extended the tenure of redemption to 03rd September, 2028. Hence, the total period for the cash flows (i.e. dividends and redemption premium) as per the terms of investments and Management representation from the valuation date i.e. March 31, 2016 is taken till September 03, 2028. The Securities were initially issued on September 04, 2008;

NSBP & Co.

- 20 -

iii. Terminal Value

The terminal value of the 12% Cumulative Redeemable Preference Shares has been taken as the principal amount and the 10% Premium on redemption calculated from September, 2008 to September, 2028.

Value of premium on redemption taken at appropriate Discounting factor comes at Rs. 21.04 crores (approximately);

It is dorified that arrears of cividend accumulated on the 12% Cumulative Redeemable Preference Shares as on 31st March 2016 have also been considered and included in the valuation.

iv. Discounting Factor

In determining the present value of the cash flows that are available to holder of 12% CRPS, the discount rate used is 12% i.e. the dividend rate. This reflects the opportunity cost of the holder i.e. the post-tax expectation of the holder of these instruments. The 12% discounting rate has been used, considering the relative low risk associated due to the feature of Cumulative Dividends being attached with the financial instrument.

Therefore, on the basis of above mentioned factors, the Fair Value as on 31st March, 2016 of the 12% Cumulative Redeemable Preference Shares as per DCF Method works out to Rs. 64.10 crores (approximately)

2. 0.1% Unsecured Redeemable Non-Convertible Debentures (Unsecured NCDs)

GIS Hote's had invested in 0.1% Unsecured Rodesmable Non-Convertible Debentures of Rs.100 (Unsecured NCDs) each Active Hotels amounting to Rs. 205 crores, which consequent to the proposed demerger shall stand vested in Asian Hotels. Interest outstanding as on March 31, 2016 is Rs. 18.45 lacs.

NSBP & Co.

- 21 -

L Face Value of Security

2.05 crores 0.1% Unsecured Non-Convertible Debentures of Rs. 100/- each i.e. Rs. 205 crores

ii. Cash Flow to the Security Holder

Period: The total period for the cash flows (i.e. interest) from the valuation date i.e. March 31, 2016 taken as per the terms of investments is 9 years i.e. till March 31, 2025

III. Terminal Value

The terminal value of the 0.1% Unsecured NCDs has been taken as the principal amount to be repaid upon maturity of the said security.

iv. Discounting Factor

In determining the present value of the cash flows that are available to holder of 0.1% NCDs, the discount rate used is 8.4%. This reflects the opportunity cost of the holder i.e. how much post-tax return a holder of the said Securities would expect from such Securities.

Therefore, on the basis of above mentioned factors, the Fair Value as on 31^{ex} March, 2015 of the 0.1% Unsecured Non-Convertible Debentures as per DCF Method works out to Rs. 100.62 crores

Therefore, as per the above calculations, the Fair Value as on 31st March, 2016 of the Securities in Consideration i.e. 12% CRPS and 0.1% unsecured NCDs, according to the method detailed above, works out to Rs. 164.72 crores (approximately).

CHAPTER 7 - VALUATION METHODOLOGY ADOPTED - ROBUST HOTELS PRIVATE LIMITED

The proposed transaction in the present case between Asian Hotels and Robust Hotels has been valued on the basis of arm's length price between Asian Hotels and Robust Hotels. The value of the hotel business of Robust Hotels has been ascertained using average of Discounted Cash Flow method and Net Asset Value method, also keeping the control aspect consideration involved in view. Net Asset Value has also been taken for the purpose of valuation, considering that to any prospective buyer in a hotel business, which also owns the hotel property the value of property is as important as the intome that can be earned from it.

The management of the hotel is with the Robust Hotels. The average value of the Hotel business of Robust Hotels has been ascertained using Discounted Cash Flow method and Net Asset Value method,

1. Discounted Cash Flow Method:

As per "The Valuation of Company shares and business" by Adamson & Adamson, 5th edition published in 1930 in McCathie's case, it was decided as under --

"A Parchaser of shares in a company which is a going concern does not usually purchase them with a view to attempting to wind up the Company.... The real value of the share will depend more on the profits which the Company has been making and should be capable of making, having regard to its nature of business..."

The value of Robust Hotels as per the Discounted Cash Flow Method has been calculated based on assumptions and business plans provided by the Menagement, using Free cash flow to Firm approach, and subsequently reducing the Fair Value of Non-Equity claims in Robust Hotels to arrive at Equity Value of Robust Hotels.

This approach has been substantiated in 6th Chapter of Damodaran on Valuation, 2rd Edition (Page - 209) :

NSBP & Co.

-23 -

"... The Value of Equity can be extracted from the value of firm by subtracting the market value of outstanding debt"

"In theory, the value of equity obtained from the firm valuation and equity valuation approaches should be the same if you make consistent assumptions about financial leverage"

Calculation using the above mentioned approach is as given below --

a) Free Cash Flow

Explicit Period: FY 2016-17 to FY 2026-27

Perpetual value: The perpetuity value has been calculated on the basis of financials of FY 26 -27.

It is substantiated from the quotation from Page 7 & 8 of "Technical guide on Share Valuation, by The Institute of Chartered Accountants of India, Published in Year 2009 -

"Cash flow should reasonably capture the growth prospects and earnings capability of a company. The forecasted period should necessarily cover the entire business cycle of a company"

b) Discounting Factor - Weighted Average Cost of Capital (WACC)

In determining the present value of the cash flows that are available to firm, the discount rate used is cost of capital of the entity, i.e. WACC. This reflects the opportunity cost of the company, WACC represents the industry's Cost of Capital i.e. what shall be the Average cost of capital for an industry specific company in a Perfect Market. Robust Hotels has issued to its holding company (GIS Hotels), Debentures at 0.1% Coupon rate which is substantially lower than market rate. Considering that if in future the shareholders intend to sell the state of capital the company to a third party, they would require such capital be repaid as well, we have taker in our workings normalizefic of capital w

Hence, it has been considered important to discount the capital employed at normalized rates to give a true and fair where to Rocket Hotels. WACC is arrived at by using the following formula:

NSBP & Co.

- 24 -

WACC = (Cost of Equity * Shareholders Funds/ Total Funds) +

(Cost of Preference * Preference Share Capital/ Total Funds) +

(Cost of Interest Bearing Debt * Interest Bearing Debt/ Total Funds)

Note: Capital Employed i.e. Shareholders' Funds, Preference Share Capital, and Interest Bearing Debt denotes the carrying values as appearing in . the balance sheet on the valuation date, including securities premium received thereon, or excluding discount given on issue (if any).

c) Cost of Equity

The cost of equity has been determined by using Capital Asset Pricing model (CAPM). This has been computed as follows:

Cost of equity = Rf + [Rm - Rf] (Beta)

Where,

<u>Rf</u> denotes risk free rate of return as per the "Public Debt Management Quarterly Report" for the quarter ending March 31, 2016 which is 7.46%.

<u>Rm</u> denotes return on diversified market portfolio return. Rm is considered **16.12%** which has been the market rate of return on Bombay Stock Exchange from April 1, 1979 to March 31, 2016.

Beta represents the systematic risk associated with investments. It is assumed that for shareholders the substitute opportunity for investment would be investment in SENSEX. Hence, we have assumed the shareholders' expectation equal to the market return (based on the return on BSE from 1979 till date).

The average beta for major listed hospitality sector companies in India is approximately 0.86, and considering that Robust Hotals has not yet fully stabilized its operations and Robust Hotels is a single hotel, unlisted company, and the age of property derive relatively pew, we have considered Beta as 1.

NSBP & Co.

- 25 -

The Cost of equity (ke) comes out to be 16.12%

d) Cost of Debt

The cost of interest bearing debt has been computed considering post tax cost of debt of the Robust Hotels. Robust Hotels has outstanding as on 31st March, 2016 0.1% Debentures of Rs. 205 crores, and Rs. 148.24 crores, including outstanding interest on the principal which is - approximately Rs. 3 crores. Term Loan raised from HDFC Bank at 12.40%. However, considering that any rational long term investor in the hospitality industry, in an arm's length transaction investing in Unsecured Debentures of a company would expect a higher rate of return, we have taken cost of debentures to be at 12%.

Based on above figures and assumption, effective post-tax cost of term loan and debentures works out to 8.11% and 7.85% respectively.

e} Cost of Preference Capital

Robust Hotels had issued two classes of Preference Capital:

- > 1% Cumulative Redeemable Optionally Convertible Preference Shares to GJS Hotels, and
- > 12% Comulative Redeemable Preference Shares to Asian Hotels;
- The cost of Preference Capital has been computed considering Post CDT Cost of Preference Capital of Robust Hotels. Robust Hotels has issued preference shares to Asian Hotels carrying dividend rate of 12%. Considering normal expectation of any long term rational investor investing in an arm's length transaction in the Preference Share Capital of a company n the hotel industry, we have taken cost of preference shares to be as the dividend rate i.e. 12% and an effect of DDT has been grossed up thereupon.

Based on these assumptions and figures, effective post-CDT cost of 12% preference shares works out to 14.44%.

 GJS Hotels had invested in 1% Cumu ative Redeemable Optionally Convertible Preference Shares amounting to Rs.192,74 crores in FY 2013-14 and FY 2014-2015 in Robust Hotels. It has been represented to us that management of GJS Hotels and Board Resolutions dated 10th February, 2016 and 21st May 2016 respectively had resolved to convert this investment in FP Cumulative

NSBP & Co.

- 26 -

Receemable Optionally Convertible Preference Shares to Compulsorily Convertible Preference Shares ("CCPS"). However, the conversion was not executed within FY 2015-16. Such conversion was effected on 1st October 2016.

As resolved earlier, on October 1st, 2015, the management of GIS Hotels and Robust Hotels have, pursuant to Sections 48 and Section 55 of Companies Act 2013 entered into a mutual agreement to convert the nature of Optionally Convertible Preference Shares to Compulsorily Convertible Preference Shares. Further, the dividend accumulated till date of conversion into CCPS has been waived off as mutually agreed. As such, the investment of GIS Hotels of Rs. 192,73,93,945/- in 89,64,623 1% CROCPS of Rs. 10/- will get converted into 6,02,31,061 number of equity shares of face value of Rs. 10 each at a conversion price of Rs.32/- per share in the current financial year, i.e 2016-2017.

Since it is evident that the Cumulative Redeemable Optionally Convertible Preference Shares are in true form Equity Share Capital and were not to be redeemed but converted into equity capital, as above, for the purpose of calculation of WACC, Cost of 1% Preference Capital has been taken equivalent to Cost of Equity Share Capital i.e. **16.12%**.

f) Cost of Capital

The WACC, considering the Fund Structure of Robust Hotels as on March 31, 2016, has been worked out to be **11.53%**, which has been used for the purpose of the valuation.

NSBP & Co.

- 27 -

g) Value in Perpetuity

The perpetuity value is the value of the business beyond the explicit forecast period. The last year free cash flows (FY 2026-27) have been considered for the purpose of computing perpetual value. A growth rate of 3% has been considered in the perpetuity for the purpose of computing perpetuity value.

Therefore, on the basis of above mentioned factors, the Enterprise Value of Robust Hotels as per DCF Method works out to Rs. 542.51crores as on 31st March, 2016

2. Net Asset Value approach:

The second approach which has been used to measure the fair value of Robust Hotels is the Net Asset Value (NAV) method. Hotel industry is a highly asset heavy sector, therefore the other approach which has been used to value Robust Hotels is the Net Asset Method. Further, Real Estate which is a major component of the total assets of a hotel business, being in a good location has the rental earning capacity or capital appreciation prospects with possibility of more hotels opening up in the vicinity in the near future. Hence, in the given scenario of acquisition of 100% control value in a hospitality sector company, it has been considered vital to take into account the fair value of the assets as well. Hence, all the assets pertaining to Robust Hotels have been valued as per the asset valuation report and the carrying values in the balance sheet and as on 31st March 2016, as provided by the Management; the liabilities have been taken as per the carrying amounts in the balance sheet of Robust Hotels as on 31st March, 2016

Therefore, on the basis of the Adjusted Net Asset Value method, the Value of Robust Hotels works out to Rs. 711.42 crozes (approximately)

NS8P & Co.

- 28 -

Considering the fact that the Hotel Business is intended to be continued on a 'going concern' basis and that the hotel industry is an asset heavy sector and any person acquiring shares in Robust Hotels will also end up acquiring controlling interest over the huge pool of assets, we have considered it appropriate to give weightage of '1' to the value determined using 'Discounted Cash Flow approach' and weightage of '1' to value determined using 'Discounted Cash Flow approach' and weightage of '1' to value determined using 'Discounted Cash Flow approach' and weightage of '1' to value determined using 'Discounted Cash Flow approach' and weightage of '1' to value determined using 'Discounted Cash Flow approach'.

The Average Enterprise value of Robust Hotels works out to be Rs. 626.97 crores (approximately). Accordingly, the Equity Value Le. value only to the shareholders of the Robust Hotels which is arrived at after deducting from the above derived enterprise value, the fair value of <u>Non-Equity</u> <u>Claim</u> i.e. 12% preference capital, 0.1% debentures and Loans comes at Rs. 314.00/- crores (Refer Chapter – 6 for values of 12% Preference Shares and Debentures)

Given the true nature of 1% CROCPS being Equity Share Capital, we have taken the value of Robust Hotels on fully diluted equity shareholding bases. As on 31st March, 2016 Robust Hotels has total number of issued and paid up equity shares outstanding of 9,39,42,769 and equivalent number of preference shares to be converted into equity as per terms highlighted above stand at 6,02,31,061. The total number of diluted equity shares thus stands at 15,41,73,830.

Therefore, estimated diluted equity value per share of Robust Hotels comes at Rs. 20.37/- approximately, rounded off to Rs 20/-

NSBP & Co.

- 29 -

CHAPTER 8 - VALUATION RECOMMENDATION

On the basis of our valuation estimate and derivation in accordance with preceding chapters, we are of the opinion that the share entitlement ratio as per below table of equity shares of face value Rs. 10/- each and at Premium of Rs. 10/- (total value – Rs. 20 per share, refer chapter 7 above) per share of Robust Hotels is fair and reasonable:

| Particulars | Value (In Rs. Crores) | Number of units | Value Per unit | Share Entitleme (per 100 units) |
|--|--------------------------|--------------------|-------------------|------------------------------------|
| 12% Cumulative Redeemable Preference Shares | 64.10 | 43,00,000 | 149.06 | 745 |
| 0.1% Unsecured Redeemable Non-Convertible Debentures | 100.62 | 2,05,00,000 | 49.09 | 245 |

Key Pointers:

The property is located in one of the most commercially prominent location viz Teynampet.

The Scope of our engagement is for estimating the realistic market value of the Land, Structure and the machineries and fixtures comprised in the Subject Hotel. This opinion repot of assessment and evaluation is for the consumption of client and its holding company only.

The Land Valuation, as defined by the scope has been conducted under the Sale Comparable Method and excludes all other methods including income Discounting method and the Deviation & risk analysis.

We have adopted the Comparable method for estimating the Land value and Depreciated Replacement value for the Structure.

With regard to the Land valuation, we have considered the Un-divided share of land as one single land parcel and accordingly arrived at the value.

We are informed that though the shell of the property was completed as early as 1998 itself, the construction was stalled owing to financial reasons. The overall construction was eventually completed only in 2007 and the same has been considered as the year of completion for our valuation purposes.

With regard to Machineries, We have relied upon the data provided by the client to estimate the make, model and age of the machines. We have not perused the invoices of these machines.

As most of the machineries are more than a decade old, their technology platforms stands replaced with newer versions leaving the existing platforms redundant. For such machineries, we have attempted to arrive at a reasonable utility value for the machinery & its technology based on comparable sale instances in the recent past. We have extensively relied upon the data available over the internet while valuing of these machineries.

With regard to the Fixtures, we have largely relied upon the data furnished by the Management. Few items were verified on a random sampling basis and not material discrepancies were observed.

Subject: Fairness Opinion on Share Entitlement Ratio for the purpose of the Proposed Scheme of Arrangement between GJS Hotels Limited, Asian Hotels (East) Limited and Robust Hotels Private Limited and their respective shareholders for Demerger of Investment Division (Demerged Undertaking) of GJS Hotels Limited to Asian Hotels (East) Limited and Reorgainisation of Share Capital and Debentures of Robust Hotels Private Limited

Dear Sir/s,

This report is issued in connection with the proposed Scheme of Arrangement between GJS Hotels Limited ('GJSHL'), Asian Hotels (East) Limited ('AHEL') and Robust Hotels Private Limited ('RHPL') and their respective shareholders pursuant to the provisions of Section 230 of the Companies Act 2013 (the 'Scheme' or the 'Scheme of Arrangement').

We, M/s D & A Financial Services (P) Ltd, SEB1 registered Merchant Banker, having SEBI Registration No. INM000011484, have been engaged by you to give our fairness opinion on the share entitlement ratio recommended by M/s NSDP & Co., Chartered Accountants, having its office at Tribhuvan Complex, Ishwar Nagar, Mathura Road, New Delhi-110065 vide their report dated 2nd February 2017.

The Scheme is subject, inter alia, to (i) approval of the Hon'ble National Company Law Tribunal ("NCLT") of respective jurisdiction and (ii) other statutory approval(s) as may be required in this repard.

1. Reason and Rationale of the Draft Scheme of Arrangement

- i. AHEL is a well-established hospitality company engaged in the business of running the 'Hyatt Regency' hotel in Salt Lake in Kolkata. It also has substantial interests in the hospitality business through its subsidiaries, being GJSHL which is a direct and wholly owned (100%) subsidiary of AHEL and RHPL which is a subsidiary of GJSHL. While RHPL is running the 'Hyatt Regency' hotel in Anna Salai in Cheonai, GJSHL is pursuing a project for establishing a hotel in Bhubaneshwar, Odisha. The operations of GJSHL have been funded primarily by AHEL by a combination of equity capital and loan. The operations of RHPL have also been funded primarily by AHEL and GJSHL by a combination of equity and preference capital and debt. While AHEL has been in the business for several years, the business of GJSHL and RHPL is relatively new. The said Companies have been looking at suitable proposals for restructuring for simplifying and rationalizing their holding and financial structure and pursuing their business more beneficially.
- In the circumstances, it is considered desirable and expedient to (1) reconstruct GJSHL and AHEL by demerging the Demerged Undertaking of GJSHL (including investment in RHPL) to AHEL and (2) reorganizing and converting the Preference Share Capital and Debentures of RHPL in the manner and on the terms and conditions stated in this Scheme of Arrangement.
- iii. The Scheme will simplify the holding structure of the subsidiaries of AHEL and result in RHPL also becoming a direct subsidiary of AHEL consequent to transfer of the investment of GJSHL in RHPL to AHEL as part of the demerger. The investment function of holding and monitoring investments in shares and securities of other bodies corporate is already undertaken by AHEL on a much larger scale. As such the total investment in RHPL will be held and monitored as part of the investment portfolio of AHEL more efficiently and advantageously. The same will also enable GJSHL to pursue operating business with greater focus and attention.
- iv. The reorganisation and conversion of the Preference Share Capital and Debentures of RHPL into Equity Share Capital in terms of the Scheme will suitably simplify and rationalise the financial structure of RHPL. The same will also enable RHPL to improve its performance with better operating parameters, including a more appropriate debt equity ratio.
 - v. As such, the Scheme will suitably realign and adjust the relationship between the capital and assets of the respective Companies and enable them to pursue their business more conveniently and advantageously.
 - vi. The Scheme will have beneficial results for the said Companies, their shareholders and all concerned.

2. Scope and Purpose of the Opinion

The Company has appointed M/s NSBP & Co., Chartered Accountants ('valuer'), to recommend a fair and equitable share entitlement ratio for reorganisation and conversion of the 12% Cumulative Redeemable Preference Shares ("CRPS") and 0.1% Unsecured Redeemable Non-Convertible Debentures ("Unsecured Redeemable NCD") of Robust Hotels Private Limited ("RHPL" or "Robust Hotels") into Equity Shares of RHPL at fair value.

The management of the AHEL has engaged has engaged M/s D & A Financial Services (P) Ltd to submit its the Fairness Opinion to the Board of Directors of AHEL on the fairness of Share Entitlement Ratio recommended by the valuer. Further this report has been issued as per the requirement of SEBI circular no CIR/CFD/CMD.16/2015 dated 30th November, 2015.

The purpose of the opinion is to safeguard the interest of the shareholders and that of the companies involved in the Scheme and this opinion shall be made available to the shareholders of the relevant Companies at the time of their meeting to pass the necessary resolution for the Scheme and to any other relevant authority.

Disclaimer: We have assumed and relied upon, without independent verification, the accuracy and completeness of all information that was publicly available or provided or otherwise made available to us by management of AHEL for the purpose of this Opinion. We have not carried out any independent verification of the accuracy and completeness of all information as stated above. We have not reviewed any other documents of the Company other than those stated herein. We have not assumed any obligation to conduct, nor have we carried out any independent physical inspection or title verification of the property, investments etc. interests of AHEL, GJSHL and RHPL and accept no responsibility therefore,

We have not reviewed any internal management information statements or any non-public reports and instead with your consent we have relied upon information that was publicly available or provided or otherwise made available to us by AHEL for the purpose of this valuation. We are not experts in the evaluation of litigation or other actual or threatened claims.

3. Sources of Information

For arriving at the opinion set forth below, we have:

Perused the Draft Scheme of Arrangement;

 Valuation Report recommending Share entitlement ratio dated 2nd February 2017 given by M/s NSBP & Co. having its office at Tribhuvan Complex, Ishwar Nagar, Mathura Road, New Delhi-110065.

4. Approach followed for valuation.

The value of the 12% Cumulative Redeemable Preference Shares and 0.1% Unsecured Non-Convertible Debentures of RHPL has been arrived at by M/s NSDP & Co, Chartered Accountants by applying Discounted Cash Flow Method while the value of hotel business of RHPL has been ascertzined by them by using average of Discounted Cash Flow method and Net Asset Value method.

The valuations and the share entitlement ratio recommended on the basis of the same have been arrived at by the consideration of the aforesaid commonly used and accepted methods which are appropriate.

M/s NSBP & Co, Chartered Accountants, while arriving at the share entitlement ratio has considered the valuation report of valuation of Land, Building, Furniture/ Interior Decorations (excluding Arts), and Machinery of RHPL ("Specified Assets") done by M/s Sreenidhi Valuation Consultancy Services, Asset Valuer, having its office at No.3, Vathiyar Thottam, 1st Street, Rangarajapuram, Kodambakkam, Chennai 600 024

5. Conclusion

Based on our examination of the draft Scheme of Arrangement and the Valuation Report of M/s NSBP & Co. dated 02 February, 2017, we are of the opinion that the proposed share entitlement ratio as recommended by the valuer for conversion of 12% Cumulative Redeemable Preference Shares ("CRPS") and 0.1% Unsecured Redeemable Non-Convertible Debentures ("Unsecured NCD") of Robust Hotels Private Limited, as under pursuant to proposed scheme of arrangements is fair.

A. Fair value of Equity Share of RHPL: Rs.20/- per share.

B. Fair Value of Preference Shares and Debentures and Recommended fair Share Entitlement Ratio:

| Particulars | Value (In Rs. Crores) | Number of units | Value Per unit | Equity Share Entitlement (per 100 units) |
|--|--------------------------|-----------------|----------------|--|
| 12% Cumulative Redeemable Preference Shares of RHPL | 64.10 | 43,00,000 | 149.06 | 745 |
| 0.1% Unsecured Redeemable Non-Convertible Debentures of RHPL | 100.62 | 2,05,00,000 | 49.09 | 245 |
